republics of knowledge tells the story of how the circulation of knowledge shaped the formation of nation states in latin america and particularly in argentina peru and chile during the century after iberian rule was defeated in the 1820s most immediately the author has sought to provide a cross disciplinary approach to the history of knowledge combining the methods of global intellectual history with a new way of thinking about nations as experienced and enacted as well as how they are imagined and in so doing offer a new interpretation of the history of independent latin america to illustrate its wider significance in the making of the modern world by bringing these lines of inquiry together within a transnational framework nicola miller shows how evidence from the pioneering nations of latin america can invite historians to rethink many of their general theories about how knowledge travels and how a sense of nationhood is created the book is designed to stimulate debate about the significance of knowledge not only in latin america but in all modern societies as miller explains latin america is usually regarded as an exception to general theories notably of colonialism nationalism and liberalism and yet it was in that part of the world not in europe that the age of revolution brought the founding of a second wave of modern republics and it was in latin america that pioneering attempts were made to apply liberal principles in societies with inherited caste divisions and corporate institutions it was there that some of the richest debates about the vexed relationship between collective identities and individualism took place

crímenes y femicidio se desarrolla en tres espacios geográficos de ecuador guayaquil manta y galápagos es la narración de la vida de una joven llamada bachita nacida y criada en manta siempre fue entre sus compañeros y amigos ejemplo de madurez responsabilidad inteligencia y belleza en otras palabras todos admiraban a bachita y como toda jovencita veinteañera soñaba con un futuro próspero en un paso más hacia su desarrollo profesional decidió establecerse en guayaquil para iniciar sus estudios de educación superior en el área de economía y es allí donde inesperadamente su vida cambió porque conoció la maldad del ser humano en su profundidad vivió en carne propia crueles ataques por parte de pandilleros que la

involucran en situaciones muy fuertes de persecución acoso y hasta la muerte de seres cercanos a ella la historia de bachita toma su punto álgido al ser conquistada por un hombre aparentemente enamorado de ella hasta lograr hacerla su esposa pero realmente la había comprado para sus fines oscuros relacionados con el narcotráfico por ello fue víctima de femicidio por parte de su propio esposo asimismo la obra muestra el lado oscuro donde se entretajan los intereses dentro de una justicia viciada y sin escrúpulos donde la compra de jueces y la ambición hacia el dinero priman sobre la justicia crímenes y femicidio muestra una historia que es justamente lo que vemos a diario en nuestras sociedades sobre todo latinoamericana que bien vale la pena escudriñar y colocar como punto de referencia para conocer este delito a fondo desde el punto de vista de las víctimas y también de la justicia manipulada por intereses es una lección de vida porque en el mundo hay muchas bachitas cuya voz han silenciado vilmente porque han sido víctimas de femicidio
