in the name of identity is as close to summer reading as philosophy gets it is a personal sometimes even intimate account of identity in the world not a treatise on the thorny metaphysics of identity a novelist by trade amin maalouf is a fluid writer and he is aided by barbara bray s award winning translation his aim is to illuminate the roots of violence and hatred which he sees in tribalistic forms of identity he argues that our convictions and notions of identity whether cultural religious national or ethnic are socially habituated and frequently dangerous we d give them up he argues if we thought more closely about them though the book has been heralded as radical and surprising maalouf essentially espouses an enlightenment sensibility a faith in the brotherhood of man he is a believer in progress arguing that the wind of globalisation while it could lead us to disaster could also lead us to success in fact he envisions a globalized world in which our local identities are subordinated to a broader allegiance to the human community itself maalouf wants us to retain our distinctiveness but he wants it subsumed under the nave of common understanding eric de place
