Concept of Education in Islam 1997-12 the topic of islamization of contemporary knowledge and education of the muslims was debated at the first world conference on muslim education in mecca in 1977 but no serious attempt has been made to trace the history of the ideas and to study and evaluate some these matters in practice

Knowledge, Language, Thought, and the Civilization of Islam 2010 the concept of the islamization of knowledge was introduced by syed muhammad naquib al attas in the late 1970s it aimed to detach knowledge from western culture and civilization in order to replace it with islamic concepts frameworks and values the islamization of knowledge was to occur in the fields of education and culture manifesting in changes to the syllabus in institutions of higher learning and niche areas of interest in selected research institutes in the field of culture however it resulted in an unintended consequence of malay literature being heavily characterized by islamic elements over the years proponents of the islamization of knowledge in malaysia have moved beyond the fields of education and culture they have entered the mainstream and become part of the state machinery thus possibly impacting national policies the concept has also evolved and arguably led to the strengthening of islamic conservatism among malaysian intellectual and cultural elites more specifically its exclusivist thinking does not augur well for intra and intercommunal relations in the country

The Educational Philosophy and Practice of Syed Muhammad Naguib Al-Attas 1998 this book originally presented as a paper to the second world conference on muslim education in 1980 for the first time in contemporary islamic thinking and in a clear and coherent manner elaborates new and originally conceived ideas and definitions key concepts such as religion din man insan knowledge ma rifah and ilm wisdom hikmah justice adl right action amal and adab are discussed elaborated and formulated into a framework for an islamic philosophy of education the concept of methodology of scientific research and the study of nature along the lines of quranic interpretation tafsir and ta wil the islamization of languages and its relation to the muslim mind and worldview and the differences between tarbiyyah ta dib and ta lim are all discussed this is a book of definitions relating to the essential elements in the concept of education and the educational process as envisaged in islam essential reading for muslim educators and all those interested in islamic philosophy and islamization of knowledge syed muhammad naquib al attas is a world renowned scholar with over twenty books to his name as well as many articles in both english and malay on islam in various fields islamic philosophy theology and metaphysics history literature art and civilization religion and education some of his works have been translated into arabic persian turkish urdu french german russian bosnian japanese korean hindi malayalam and indonesian professor al attas is founder director of the international institute of islamic thought and syed muhammad naquib al attas

civilization istac which was founded in kuala lumpur in 1987 and which began operation officially in 1991 as a research and post graduate institution of higher learning istac was conceived by professor al attas as a way to realize this seminal ideas for the creation of true islamic university providing proper islamic education through the incorporation of his original ideas and methods for the islamization of knowledge

Naquib Al-Attas' Islamization of Knowledge 2021 prolegomena to the metaphysics of islam written by the erudite theologian syed muhammad naquid al attas

Naquib Al-Attas' Islamization of Knowledge 2021-07-29 in this book the author gives a penetrating insight into the ways of spurious thinking and analytical reasoning among historians of the malay archipelago in their explanation and interpretation of historical events pertaining to the coming and spread of islam in the archipelago he exposes errors and fallacies in their chronological framework and educated conjectures their tainted assumptions on the religious and cultural effects of islamization in indigenous history in dealing with the islamic past his critique of their empirical and inductive methods and weak logical analysis and rational estimation deserves due appreciation in contradiction to what the historians assume as the facts of history the author demonstrates his own explanation and interpretation of the major issues and casts new light on many basic matters that have hitherto eluded inquiry

Rescuing History from the Orientalists 2013 this book defines perhaps for the first time in the history of the intellectual and religious tradition of islam the meaning of worldview from the perspective of islam the definition is articulated in the gathering together of the fundamental elements in the vision of reality and truth that projects the worldview of islam into a meaningful whole this articulation of the definition involves also explanation and contradiction of the challenges to that vision encountered throughout the ages to the present time

is a Malaysian politician who was the fourth prime minister of Malaysia. He held the post for 22 years from 1981 to 2003, making him Malaysia's longest-serving prime minister. His political career spanned almost 40 years. Born and raised in Alor Setar, Kedah, Mahathir excelled at school and became a medical doctor. He became active in the United Malays National Organisation (UMNO), Malaysia's largest political party, before entering parliament in 1964. He served one term before losing his seat, before falling out with the then prime minister, Tunku Abdul Rahman, and being expelled from UMNO when Abdul Rahman resigned. Mahathir re-entered UMNO and parliament and was promoted to the cabinet by 1976. He had risen to deputy prime minister and in 1981 was sworn in as prime minister after the resignation of his predecessor, Hussein Onn. As prime minister, Mahathir was credited with engineering Malaysia's rapid modernisation and economic growth and initiated a series of bold infrastructure projects. He was a
