one of the commonly misunderstood phrases in the language is the spanish main to the ordinary individual it suggests the caribbean sea although shakespeare in othello makes one of the gentlemen of cyprus say that he cannot twixt heaven and main descry a sail and therefore with other poets gives warrant to the application of the word to the ocean main really refers to the other element the spanish main was that portion of south american territory distinguished from cuba hispaniola and the other islands because it was on the main land when the gulf of mexico and the caribbean sea were a spanish lake the whole circle of territory bordering thereon was the spanish main but of late the title has been restricted to central and south america the buccaneers are those who made it famous so the word brings up white hot stories of battle murder and sudden death the history of the spanish main begins in 1509 with the voyages of ojeda and nicuesa which were the first definite and authorized attempts to colonize the mainland of south america the honor of being the first of the fifteenth century navigators to set foot upon either of the two american continents indisputably belongs to john cabot on june 24 1497 who was next to make a continental landfall and in the more southerly latitudes is a question which lies between columbus and amerigo vespucci fiske in a very convincing argument awards the honor to vespucci whose first voyage may 1497 to october 1498 carried him from the north coast of honduras along the gulf coast around florida and possibly as far north as the chesapeake bay and to the bahamas on his return markham scouts this claim winsor neither agrees nor dissents his verdict in the case is a scottish one not proven who shall decide when the doctors disagree let every one choose for himself as for me i am inclined to agree with fiske if it were not vespucci it certainly was columbus on his third voyage 1498 1500 on this voyage the chief of the navigators struck the south american shore off the mouth of the orinoco and sailed westward along it for a short distance before turning to the northward there he found so many pearls that he called it the pearl coast it is interesting to note that however the question may be decided all the honors go to italy columbus was a genoese cabot although born in genoa had lived many years in venice and had been made a citizen there while vespucci was a florentine

America's Stealth Fighters and Bombers 1992

2nd edition 2018 advanced training for indivisible bluewave swingleft
womensmarch humanrights and all progressives to defeat and neutralize trump s
extremist hate based agenda as a nation we need healing and we need it now
this book responds to the question posed by millions of people who want to
know how to combat trump s administration and regressive agenda of
republicans in congress we ll use the laws of the mind to attract success for
the causes dear to the hearts of compassionate and progressive americans we
can prevent the massive havoc and destruction that trump and his supporters
are championing this book includes a crash course in using the laws of the
mind such as the law of attraction in a more effective way than most of us
ever learned i am here to make a difference and i believe you are here to
make a difference too a positive difference not the kind of difference trump
and his america first supporters are enacting the world is moving toward
globalization and interaction among nations while trump demands walls
deportations and other hitleresque actions that appall sensible people even
the dalai lama voted the most beloved man in the world suggests an anti trump
program in his newest book about politics and the trump fed divisiveness
among nations together we can access the power of the mental laws to create
the benefits and progress we desire for ourselves and future generations
battling someone never leads to progress it only leads to anger resentments
and anxiety when fear takes hold it clings with a grip we must loosen those
barbs of fear and free ourselves to lift up into a higher finer vibration of
spiritual awareness from that vantage point we can have a broader perspective
of the transformational times we live in the inevitable fact that many people
are still in the old mode of living and will resist and hate us for wanting
to keep evolving and expanding america s new breed of freedom fighters is not
defined by a specific skin color ethnicity age gender education economic
status or any other distinguishing feature we re not a homogenized group we
are the people my father was a u s army colonel former member of the oss
decorated world war ii veteran and he would never have voted for mr trump
military people who look behind fox news to the facts are speaking out
against trump s administration if we fear and dread what the republicans in
congress will do next we become inadvertent collaborators transmitting our
invisible energy straight them and feeding their greed for power let s not
let that happen to america it takes bravery to be a freedom fighter it
requires more understanding and self control to practice nonviolence than to
explode in anger when our buttons get pushed but the payoff is enormously
wonderful we grow expand and create more joy in the world peace at any price
not when it means kowtowing to the tantrums of a misogynist narcissist and
racist you can t get happy results by thinking unhappy thoughts i m writing
this book to offer insight into how you create your life experience moment to
moment by day what would it feel like to know that you are making a

difference every single minute it s true and what we have overlooked as a whole is that we are always making a difference but we don t see that we affect everything either in a nurturing way or in a devolving way that brings about more of the unwanted all around us however when we take the time to step back from the emotional trauma and recall that we are all eternal spirits here for a reason then we can make a choice as we ask ourselves do i want to align with goodness or do i want to align with fear the decision is ours do we move forward or do we allow fear to mire us in the mud of inaction this book provides information on how to peacefully manifest change

The residents of Minot North Dakota Clear Channel Communications is synonymous with disaster early in the morning of January 18 2002 a train derailment sent a cloud of poisonous gas drifting toward the small town Minot. Fire and rescue departments attempted to reach Clear Channel which owned and operated all six local commercial radio stations to warn residents of the approaching threat but in the age of canned programming and virtual DJs there was no one in the conglomerate's studio to take the call. The people of Minot were taken unawares the result one death and more than a thousand injuries. Opening with the story of the Minot tragedy Eric Klinenberg's *Fighting for Air* takes us into the world of preprogrammed radio shows empty television news stations and copycat newspapers to show how corporate ownership and control of local media has remade American political and cultural life. Klinenberg argues that the demise of truly local media stems from the federal government's malign neglect as the agencies charged with ensuring diversity and open competition have ceded control to the very conglomerates that consistently undermine these values and goals. Such big media may not be here to stay however Eric Klinenberg's *Fighting for Air* delivers a call to action revealing a rising generation of new media activists and citizen journalists a coalition of liberals and conservatives who are demanding and even creating the local coverage they need and deserve.
