The Routledge Handbook of Gender in Central-Eastern Europe and Eurasia

2021-09-01 bridging childhood studies pedagogy and educational theory critical psychology and postcolonial studies this unique book reads the role and functions of the child and childhood as both cultural motif and as embodied life condition through the work of frantz fanon based on innovative readings of fanon and postcolonial cultural studies the book offers new insights for critical pedagogical and transformative practice in forging crucial links not only between the political and the psychological but between distress therapy and personal and political learning and transformation structured around four indicative and distinct forms of child read from fanon s texts idiotic traumatogenic therapeutic extemic the author discusses both educational and therapeutic practices the pedagogical links the political with the personal and fanon s revolutionary psychoaffective account offers vital resources to inform these finally the book presents child as method as a new analytical approach by which to read the geopolitical which shows childhood education and critical psychological studies to be key to these at the level of theory method and practice by interrogating contemporary modalities of childhood as modern economic and political tropes the author offers conceptual and methodological resources for practically engaging with and transforming these this book will be vital and fascinating reading for students and scholars in psychology psychoanalysis education and childhood studies gender studies postcolonial studies and mental health

Emerging Concepts in Dengue Pathogenesis and Host Innate Immune

Response 1997-06-02 accompanying cd rom contains many helpful teaching and learning aids

New York Magazine 2013-01-25 they call him america s mayor but to blacks that title sugarcoats rudy giuliani s real reputation as one of the most racially divisive leaders in the nation peter noel s book puts giuliani s often ignored record of oppressing the other new york

front and center in the 2008 presidential race noel was a witness to giuliani time in new york as the race beat journalist for the village voice he reported exclusively on the police brutality that rained down on blacks and the denigration of black leadership by giuliani in this collection of his exposés noel provides stunning insights into the most notorious events of giuliani s tenure including the execution style killing of amadou diallo and the sadistic torture of abner louima both men like many black victims of giuliani s stop and frisk policing were innocent of any wrongdoing this brutality sparked a new black activist movement scores including jesse jackson were arrested and peter noel was there to cover it no journalist was more insightful about the rise of al sharpton khallid muhammad s million youth march and giuliani s demonization of david dinkins the city s first black mayor there are interviews with major political players inside accounts of the shifting alliances and violent conflicts between ethnic groups and a stinging critique of the white dominated media and then there is peter noel s interview with giuliani which took the form of a street fight in harlem in these eloquent often searing pieces written in an outraged and authentic voice peter noel spoke truth to the power of an afriphobic mayor in this revealing book he still does

Loose-leaf Version of Immunology 2006-10-27 navigating the postqualitative new materialist and critical posthumanist terrain across disciplines is an accessible introductory guide to theories paradigm shifts and key concepts in postqualitative new materialist and critical posthumanist research supported by its own website this first book in a larger series is an essential companion to the primary texts and original sources of the theorists discussed in this and other books in the series disrupting the theory practice divide the book offers a postqualitative reimaging of traditional research processes in doing so it guides readers through the contestation of binaries innovative concepts and the practical provocations that make up the postqualitative terrain it orients the researcher in the ontological re turn also by considering indigenous knowledges african eastern and young children s philosophies the style itself is postqualitative through diffractive engagements by the authors and the website includes some examples of the practical provocations described in the book that give an imaginary of how postqualitative research can be taught and enacted this book is an essential resource for novice as well as experienced researchers working both within and across disciplines in higher education

Respiratory Infections 2019-08-08 recent developments have increased the need for both theoretical and practical dialogues concerning children s attention and activity levels this book explores the complex issues and concerns in helping children with attention deficit disorder the book is organized in three major sections the first section describes current issues about children s attention and activity levels the development of attention medical diagnoses

educational assessment and current educational practices are described the second section examines changing theoretical and applied perspectives including the impact of teacher philosophy on classroom structure as well as expectations and theoretical shifts in our understanding of children the third section makes practical suggestions for dealing with attention and activity levels developmentally appropriate practice specific strategies for working with students and recommendations for working collaboratively with a wide variety of families are addressed the book concludes with a look at possible directions these issues will take in the future jpb
