Disposable Cities

2017-03-02

based on in depth fieldwork in three cities dar es salaam zanzibar and lusaka this book provides a critical analysis of the united nations sustainable cities program in africa scp focusing on the scp s policies for solid waste management which was identified as the top priority problem by the scp the book examines the success of these pilot schemes and the scp s record in building new relationships between people and government it argues that the scp has operated in a political vacuum without recognition of the long and problematic histories and cultural politics of urban environmental governance in eastern and southern africa this book brings these cultural and political histories to the fore in its examination of the contemporary dynamics in doing so it not only provides an insightful analysis of the policies and outcomes for the scp but also puts forward a historically grounded critique of neoliberalism good governance and sustainable development discourses

WAEC in Review

2014-11-07

waec in review is a practical intervention strategy in transforming the weakening educational system of liberia where academic excellence is unceasingly diminishing lipace pilot study guide is not only a landmark achievement in the educational history of liberia but a remarkable stride towards the proper preparation of liberian students for future diets of the waec exam as a member of the national committee of the west african examinations council and a stakeholder in the liberian education system i wish to recommend the use of this study guide to adequately prepare each and every liberian student for future examinations thereby setting the stage for an easy transition to the emerging west african senior secondary examinations wassce i am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next waec exam david s massaquoi sr director of education the salvation army liberia command education secretariat our students sit the exam in constant fear of proctors and supervisors they know nothing about the exam and its structure and this fear lead to them failing massively we need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam thanks to lipace and the turning the tide project we have helped our students achieved an amazing achievement for the first time in the history of gbarpolu county where

all senior students successfully passed the exam lartey bemah
principal of bopolu public school 2012 2013 gbarpolu county liberia

Assessment in Geographical Education: An International Perspective

2022-02-27

in recent years there has been increased attention paid to the importance of assessment in geographical education the chosen subject for this book assessment is an important tool for collecting information about student learning and for providing timely data to inform key stakeholders including students teachers parents and policymakers to be effective assessment needs to be valid reliable and fair validity is about ensuring that we assess what we claim we are assessing reliability is about measuring performance and understanding in a consistent way without validity and reliability assessment is unlikely to provide equitable opportunities for students to demonstrate what they know and can do as geography educators it is therefore important that we identify the core concepts and skills in geography that we want students to master we need a clear understanding of what the progression of learning looks like for each concept and skill so we can develop fit for purpose assessments that track and improve student learning while there is a substantial literature on evidence based assessment in secondary school contexts research exploring best practice assessment in geography is rare this is a concern given the distinctive nature of geography and the important role of assessment in the learning process this scholarly collection seeks to address this issue by connecting research in educational assessment with the domain of geography the chapters are written by leading researchers in geographical education from across the globe these chapters provide examples of innovation through the collective voices of geography teacher educator scholars from across australia usa south korea germany switzerland and singapore what unifies the work in this book is that each chapter focuses on a key feature of the discipline of geography providing scholarly examples of evidence based practices for assessing student s knowledge and skills

Lessons from Problem-based Learning

2010

problem based learning pbl has excited interest among educators around the world for several decades among the most notable applications of pbl is the approach taken at the faculty of health medicine and life sciences fhml at maastricht university the netherlands starting in 1974 as a medical school the faculty embarked on the innovative pathway of problem based learning trying to establish a medical training program which applied recent insights of education which would be better adapted to the needs of the modern physician the medical school currently part of the fhml can be considered as an established school where original innovations and educational changes have become part of a routine the first book to bring this wealth of information together lessons from problem based learning documents those findings and shares the experiences of those involved to encourage further debate and refinement of problem based learning in specific applications elsewhere and in general educational discussion and thought each chapter provides a description of why and what has been done in the maastricht program followed by reflection on the benefits and issues that have arisen for these developments the final section of the book examines the application of pbl in the future and how it is likely to develop further

Strategic Narratives

2014-02-18

communication is central to how we understand international affairs political leaders diplomats and citizens recognize that communication shapes global politics this has only been amplified in a new media environment characterized by internet access to information social media and the transformation of who can communicate and how soft power public diplomacy 2 0 network power scholars and policymakers are concerned with understanding what is happening this book is the first to develop a systematic framework to understand how political actors seek to shape order through narrative projection in this new environment to explain the changing world order the rise of the brics the dilemmas of climate change poverty and terrorism the intractability of conflict the authors explore how actors form and project narratives and how third parties interpret and interact with these narratives the concept of strategic narrative draws together the most salient of international relations concepts including the links between power and ideas international and domestic and state and non state actors the book is anchored around four themes order actors uncertainty and contestation through these strategic narratives shows both the possibilities and the limits of communication and power and makes an important contribution to theorizing and studying empirically contemporary international relations international studies association
