television past as lp hartley might have once said is another country and in the early 1980s it certainly was a different beast there were still only three channels to watch the evening s programmes finished with the playing of the national anthem and the biggest prize on tv was not chris tarrant s million pounds but a speedboat on bullseye but as tom bromley suggests in this funny and warming memoir all that was about to change the 1980s saw the end of the original golden era of television and the beginnings of tv as we know it today in 1982 channel 4 became the first new terrestrial channel for almost twenty years and by the end of the decade rupert murdoch s sky television was vying to become britain s first multi channel provider the result of all this was that slowly but surely british viewers had more choice than ever before and the cost of this choice was the erosion of television as a shared national event and no one felt this change more deeply than tom bromley television played a large part in tom s childhood his first word was two as in bbc two and his earliest childhood memory is seeing johnny ball at a church fete with great humour and affection tom bromley tells the story of a childhood spent with his three siblings and that other all important family member the television set

included being red rum s stableboy and a bingo hall barman it was as a great yarmouth holiday camp entertainer that he had his first crack at telling jokes on stage it got him some laughs the sack and a punch in the face now as lee mack he s one of our best loved and most successful comedians both as a live stand up and on television in mack the life lee tells the story of how he got there and gives extraordinary insight into what really makes comics tick hilarious and brilliant it s the kind of book which reminds you why you learned to read in the first place nearly
